

Company Overview	FAIRPAY Solutions is the leading authority on specialty medical bill review services for workers' compensation, auto and liability payers to help combat egregious provider over-billings. Our services are based on in-depth legal, medical and financial analysis of comprehensive data sources. We leverage leading-edge technology to deliver consistently fair and reasonable reviews as well as significant savings to our clients.
Technology Platform	At the foundation of FAIRPAY's thorough review is our patent-pending Medical Analysis, Auditing and Repricing Services (MAARS.net) system that provides in-depth analysis, review and reduction of medical claims and specialty bills for clients nationwide. The system complies with each state's specific statutes and precedents for workers' compensation bill review and contains data from more than 20 public and proprietary databases. More than 300 million transactions are on file – including costs, charges and prevailing payments for virtually every medical procedure – ensuring fair and legally defensible payment recommendations.
Company Footprint	In the workers' compensation arena, FAIRPAY provides analysis of seven bill types across 40+ states, based on in-depth knowledge of state-specific regulations regarding appropriate payment, creating the most thorough service footprint in the industry.
